

Nfina 6224JBOD

FEATURES:

- 2U rack-mount enclosure
- 24 x 2.5" hot-swap drive bays
- Up to 184TB storage per unit
- Single SAS expander
- 12Gb/s SAS capable
- 4 x Mini-SAS HD ports
- Easily daisy-chained
- Supports NTP for time synchronization and RTC battery backup
- 2 x hot-swap 80+ Platinum power supplies
- Standard rails included
- 1 x IPMI port for remote monitoring of resources and fan/power management

The Nfina Technologies 6224JBOD, Economical Solution for Incremental Storage

Designed for maximum storage capacity in a 2U rackmount package, the Nfina Technologies 6224JBOD is a high-density storage expansion unit that provides an easy way to add incremental storage to existing storage networks. Multiple JBODs can be easily daisy-chained using SFF Mini-SAS cables for high-availability or high redundancy requirements. This product is ideal for cloud backup, data replication or high-density archive storage applications.

Nfina Technologies' 6224JBOD is an important component in maximizing IT network performance and efficiency. It is also a cost-effective solution for expanding storage capacity to existing Server, NAS, and SAN products.

At Nfina Technologies we achieve high availability and performance with our servers NAS, SAN and JBOD products. Our designs and components are manufactured to the highest quality standards in the industry for use in the most demanding 24/7 data center applications.

Nfina products deliver exceptional functionality by creating products that are easily customized to fit specific applications. Designed and built for virtualized computing environments, our products provide high-density, maximum yield solutions for our customers. Multiple options for high performance computing, including I/O, RAID, storage, and memory options make our products a custom fit for many applications.

All Nfina Technologies' servers are backed by a five-year limited warranty and include 24x7 tech support with remote diagnostics. Next day and four hour onsite response options are available.

NFINA 6224JBOD

SPECIFICATIONS

Form Factor	2U rack-mount enclosure, 3.5" x 17.2" x 24.8"
Operating Temperature	10°C to 35°C (50°F to 95°F)
I/O Modules	4 x Mini-SAS HD ports (SFF-8644)
Connectivity	12Gb/s SAS connectivity
Drives	24 x 2.5" hot-swap drive bays
Maximum Storage	Up to 184TB per 6224JBOD
Input Voltage	100-240V @ 4.5-11A 50/60Hz x 2
Power Supply	Redundant hot-swap, 740W, Platinum certified
Remote Monitoring	1 x IPMI port (Allows temperature readings, power and fan management)
Certifications	CSA Certified (USA & Canada), CE (Europe), WEEE (Europe)
Warranty	5 years
